Oh little baby kitten  
I'd love to see you now  
let's meet up on the moon  
or under a starlit sky  
let's have the universe just turn n turn around  
our secret little world that we made just for us

Hey babe  
come and doodle do  
with me  
hey honey  
come let's have a good time  
let's lets play around  
crazy

Oh little tiger tiger  
let's have a doodle day  
let's just go shopping  
or do some really crazy things  
don't wanna stress  
but I'd love to see ya now  
cause you've had me waiting all this time  
so

Oh babe sugar honey  
dear you make me cry  
no way you ain't going nowhere  
you gonna make me high  
don't know if anybody  
ever made me day  
like you once did  
in this lovely swing romance

No rest  
now!  
No stress  
cause you want me

Can't see why we can't have a good time

Hello there are you listening  
cause this is a voice from deep within  
introducing you vibes

Move your hips  
drop that pose  
move your body  
from head to toe  
right now  
come

Sweat?!  
i can't sweat  
scream?!  
i can't scream
